

Anne and the 4 Freshmen

by Jorgen Bjorno, Denmark

First of all, THANKS to Lisa Adams and Ray Brown for a very very fine convention in Orlando. Thanks to the many nice people and good friends, not to forget the Four Freshmen, who gave us once again a great experience.

Some folks noticed that Betty and I brought in our daughter, Anne, but that was no coincidence. Anne experienced The Four Freshmen already in 1978 as the Bjorno family traveled in the west, and came into Scottsdale, Arizona, to see and hear the Freshmen Sept. 20 on their 30-year anniversary. There was taken a photo with all 3 kids together with tall Bob by the swimming pool. Anne is standing in the middle, 12 years old. Later on we visited the Flanigan family in Las Vegas. The picture shows Mary and the Flanigan kids. Today I only remember the names of Scotty and Jennifer.

Many years went on until this year 2003. In May, Anne saw and heard the Four Freshmen again in Holland. *And this time a group of her own age.* She became wildly impressed. After the concert she wanted to be photographed together with the guys. I tried to do so, but the flash didn't work very well. Home again we discovered the error, but no problem. With a computer, we took a nice picture of the guys alone and a nice picture of Anne with a yellow umbrella. Put them together (without umbrella), and Anne got her picture.

In Orlando things worked better for Anne. She got so many nice pictures taken and was the most happy girl in that convention. Look at the nice picture with Anne and Vince. You see what I mean - a nice couple.

For sure, the society and the young guys have one more great fan from Denmark. It seems to be good for the future.

Your friends in Denmark - Betty and Jorgen
