FOUR MILLION THANKS

A short time ago, we got an opportunity to do something we've been talking about for a long time. We got to make a DVD of our show!

When we played at the Suncoast in Las Vegas last February, Big Picture Productions brought the whole production company in to record the show. I think it was one of our best.

Then came the post production, which included audio mixing, video editing and synching, and probably lots of other stuff I've never heard of. Then there are music licenses to get from publishing companies, a graphic artist to do the cover, the replication company, stunt doubles, etc. (ok, no stunt doubles)

But there were a LOT of people who worked together to make this thing the best video representation of the Four Freshmen ever. And in charge of it all was Dina Sheets-Roth at IVI. Dina got it started, kept it moving, and got it done.

When you see the DVD, you'll know it was done by professionals. The only problem with pros is they rarely work for free. (dang.) Before we could start, we needed a significant financial investment. So we came to you, the Four Freshmen Society. And just as you did on the last two CDs, you came through!

So, from The Four Freshmen, FOUR MILLION THANKS for helping us get our CDs out there, and especially for providing the capital needed to make this DVD, which we're calling LIVE IN LAS VEGAS. We're very proud of the way it turned out, and every FFS member should be proud too.

See you next time,

Brian
