

**Live From Las Vegas CD On The Air
(Dick Baldwin, FFS President)**

For all active FFS members who listen to the airwaves!

In discussion with Dina at IVI we agreed to promote the FF on air with the latest CD, while the Four Regional Reps are identifying potential booking dates for the group - THE AMBASSADORS.

Above are two timely projects by the FFS.

FOR THE FOUR FRESHMEN!

ID local DJs in your area who play or might play The Four Freshmen. Forward this information to Music Mart's Bob Lininger. Per your instructions, Bob will mail the *Live in Las Vegas* disc free directly to you for your personal contact with the DJ at the station. Note DJ name, station call letters, radio band number, station address, phone number & e-mail. Forward to Chick (editor) at Fresh News to include in "Fresh Sounds" section.

Easy, and an entry for some live air play. IVI continues to handle the commercial companies, who supply stations with prepared music tapes and feeds. However, if you have interesting satellite or production organizations, let us know.

Believe the local broadcasters would appreciate your close attention and Freshmen friendship.

It's worth the time and effort!

**Lucy Gallant!
Jill Wickham, Florida**

After a many-year search, I have finally located the 1955 Jane Wyman/Charleton Heston film in which the FF sing "HOW CAN I TELL HER?"

This is a nice love story that takes place in the early 1940's in a poor Texas town that becomes a boom-town after they strike oil.

It has just now become available on DVD from:
www.joesclassicmovies.com for \$9.50 plus shipping

I think that all FFS members should at least be made aware of this precious piece of FF memorabilia.
